experience

Horticulture

- Served as leader in Cornell's Horticulture Club's community service projects
- Managed community driven, volunteer supported, garden project, which donated over 1,000 pounds of produce to the local food bank
- Through combined horticulture experiences:
 - Installed irrigation system
 - Planned and installed new garden exhibits
 - Guided volunteers of all ages on garden projects
 - Created soil health plans/crop rotation schedules
 - Worked in public gardens, private gardens, and farms
 - Well versed in greenhouse management, permaculture, IPM, and container gardening techniques
 - Knowledgeable on native flora and ornamental species

Programming and Design

- Planned and implemented workshops on a variety of garden topics for diverse audiences
- Designed, executed, and evaluated educational programs, weekly, for local communities and served as committee head for an event incorporating 45 volunteers and 36 partner organizations
- Through combined experience of both coursework and employment designed educational signage, logos, and other outreach materials
- Proficient in Microsoft Office, Google Suites, Adobe Suites, AutoCad, Rhino3D, and ArcGIS
- Developed and implemented curriculum in accordance with Next Generation Science Standards
- Developed, executed, and evaluated formal and non-formal educational opportunities for adult learners

Management

- Strengthened interpersonal communication through one-on-ones with staff, small project teams, and facilitation of staff meetings and workshops
- Confident in expressing ideas and concepts through both oral and written formats
- Successfully developed and completed projects in accordance with institutional guidelines, while adhering to time-line and budget goals
